

DATA TOOLS

The 4HI spreadsheets and data are designed to allow you quick access to financial and statistical information to aid in analyzing company and facility performance. With the peer group maker, you can quickly compare results with other like facilities. You have the data already in Excel, so manipulation is simple.

ONLINE SEARCHES

Multiple online search tools help you find what you are looking for. As an aggregator of other resources and information we help steer you in the right direction. Our aim is to make sense of the universe and complexity of information that exists in the healthcare space.

4HealthInformation.com Data Tools

The 4HI spreadsheets and data are designed to allow you quick access to financial and statistical data. With the peer group maker, you can quickly compare results with other like facilities and output data.

The image shows a detailed financial spreadsheet with columns for Report Year 1, Report Year 2, Report Year 3, and Report Year 4. The rows are organized into sections: Balance Sheet (Assets, Liabilities and Fund Balances), Income Statement, and Total Assets, Liabilities, and Equity. The data is presented in a grid format with numerical values and some text descriptions.

At some point in the process most users want the data and they want it in Excel. We preload Excel with facility data and reports ready to use and manipulate.

You can choose to use our online search system and financial data or download the spreadsheet peer group data too.

We take pride in understanding the healthcare data and helping our clients with their data needs. We have worked with some of the largest Hospitals, Insurance companies, and Healthcare consulting companies. We enjoy sharing our expertise and helping to solve problems.

Create custom peer groups containing individual facilities and give them unique names. Run reports by PEER GROUP, STATE, CBSA, CITY, ZIP, etc.

The Report Tab
This can be used to search for facilities and produce quick reports and trended comparisons. Simply use the search boxes to find your providers by name, number, cbsa name, or peer group. Peer groups can be created by the click of the Add To Peer button. You'll be prompted for a name to give your peer group. These will be saved on the peer Tab. Select the most current option if you only want to see the most current reports for your selection. Otherwise, you'll get all reports in the database for each provider.

Facility Pick: MIZELL MEMORIAL HOSPITAL
CBSA Pick: Florence-Muscle Shoals, AL
Peer Group Pick: Sample
City/State: ABBEVILLE
State: NE
Zip: 67047

ADD TO PEER | Most Current

Report Fields can be changed. Any valid field name from the financial table can be used. You can also use more fields. Only the first three fields Provider Key, Oscar, and CBSA have to remain in the first three columns. If you delete a field, make sure you erase the entry from the two header rows. For example, if you want to delete the last field "othercast" make sure you erase the two lines in the header for that column. Also, make sure there are no spaces between the fields.

The Financial Tab
This tab shows the last 3 years of financials for the provider listed. It's controlled by the Report Area tab's provider drop down. If you change that provider the information on this tab changes.

Financial Table Tab
This tab contains the data for most of the workbook. It may be filtered by your last selection. You can unfilter it manually or use the filter to look at other fields and trends. The filter is controlled by the Report Area tab selections.

Hospital Tab and Picklist Tab
Contain lists to control the provider name, search, and CBSA searches.

Peers Tab
This tab contains a list of peers you made. You can manually adjust them as well as save them from the Report Area Tab. If you made a mistake you can simply manually adjust the provider numbers listed from left to right.

Providerinfo Tab
This tab contains separate information from CMS for facilities. It's a provider of service file and has various information regarding location and type of facility.

Service Features and Benefits

Members of course get online access to data and our spreadsheet tools. Members also get access to our map of the industry. This map is an ever-developing list of links, information, and sites categorized by type of service. Members contribute suggestions and informational edits.
